Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: [CDC Travel Guidelines](#)

SITUATION SUMMARY

2021 Early December Storms

A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

Activations

- Situation Cell is activated at Enhanced Watch for Incident Reporting on the Early December Storms.
- [Please see attached Situation Cell Incident Report Early December Storms.](#)

CESRS and FIRENET (UPDATE)

Field staff DO have the ability to communicate via radio to the California State Warning Center (CSWC), as long as they are on the same radio microwave path\route. See [mapping route diagram](#).

- The CSWC represents the hub in Sacramento, where all the colored lines meet in a star.
- The caller CAN reach the CSWC, as long as they are on the same colored 'on MW route'. (Example 202 Mountain Top Red to 242 Mountain Top Red, as shown in the box labeled 'Dialing Directions'.)
- The caller CANNOT reach someone on another route, or colored line. This is considered 'off MW route'. (Example: 202 Mountain Top Red to 262 Mountain Top Green.)
 - This is determined to be inoperable at the moment.
 - TACCOM and PSC are working on a solution.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

SOUTHERN CALIFORNIA

- A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

WEATHER KEY POINTS

12/10/21 - 12/16/21

Friday-Saturday

- Drier and quieter weather is expected statewide on Friday

Saturday Night-Thursday

- A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.
 - Snow levels will lower considerably through early next week, even into Southern California.
 - Heavy rain and snow look likely for Northern California, with one to three inches of rain possible in the valleys of Northern California and several feet of snow possible in the Sierras during this event.
 - Rain will also reach Southern California, with up to two inches of rain possible across coastal Southern California. Any snow accumulation across Southern California mountains should be light.
 - The heavy rain and snow will raise the threat for flash flooding, river flooding, mudslides/debris flows, and travel hazards across the region.
 - **At this time, the burn scars of most concern are the Alisal, Apple, western portions of the Caldor, Creek, Feather River portion of the Dixie, and the SQF Complex.** Burn scars across far northern California are of less concern at this time with the snow level being low during this event.
